and despair. A good deal of it was utterly unjust, and even the jaunty young staff officer, with red tabs and polished boots, was often not quite such a fool as he looked, but a gallant fellow who had proved his pluck in the early days of the war and was now doing his duty-about could to eyes, closely cropped hair growing white, with a little white mustache neatly trimmed on the upper lip. Gen. Horne, of the First Army; Gen. Byng, of the Third Army; Gen. Rawof the Fourth Army; Gen. Hal now doing his duty—about equal to the work of a boy clerk—with real industry and an exaggerated sense of its importance. Personally and with utter honesty, I can pay high tribute to many of our staff officers at divigent. Braithwaite, Ferguson, Congreve and Pinnie, could all be described in that way, in spite of marked individual difference, as all mother's sons differ from one another. to many of our staff officers at divi-sional, corps and army headquarters, because of their industry, efficiency and devotion to duty. And during the progress of battle I have seen them, hundreds of times, working desperately for long hours, without much rest or sleep, so that the fight-ing men should get their food and munitions, so that the artillery should support their actions, and the troops in reserve move up to their relief at Mentally they had similar qualities. They had unfailing physical courage though courage is not put to the test much in modern generalship, which, above the rank of brigadier, works far in reserve move up to their relief at the proper time and place.

All the administrative side of our war was quite marvelous in its method and organization, and the armies were worked like the clockwork machines. The transport was good beyond all words of praise, and there was one thing which never failed to reach poor old Tommy Atkins, unless he was cut off by shellfire, and that was his food. some other manner.

Senator Cummins favors consolidation of the railroads of the country into They distrusted the "brilliant" fellow safe; and they were not quick to allow young men to gain high com-mand at the expense of their grey The motor supply columns and ammunition dumps were organized to the last item of efficiency. Our department was magnificent.

dustrious, able. conscientions have sparing themselves long hours and the admiration of the French. Our intelligence branch was, as a rule, excellent, and often almost uncountry's sake, they demanded equal willingness of sacrifice from every little of that hostification officers and there was very little of that hostific there was very little of that hostific the staff which was violent in expression elsewhere on the from.

No General with Magnetism.

No General with Magnet whose personality had that mysterious but essential quality of great deal to criticise justly enough, and generalship—inspiring large bodies of men with exalted enthusiasm, devotion and faith. It did not seem to matter very much to the men whethmatter very much to the state of the ground, mangled to criticise justly enough, and there is no doubt that British gentice and the cralship and staff work made many into chaos by artillery, with hundreds of brooks overflowing their unavoidable, because it is human to the variety of the criticise justly enough, and there is no doubt that British gentice whether is no doubt that British gentice was by artillery, with hundreds of brooks overflowing their broken banks and with incessant err, and some of them due to sheer, and some of them due to sheer.

Stood in the roadside to criticise justly enough, and there is no doubt that British gentice to the state of the ground, mangled to the state of the
